

AGRIVET SCHOOL

Animal Husbandry production, especially Poultry production in India has taken a quantum leap in the last four decades, emerging from an unscientific farming practice to commercial production system with state-of-the-art technological interventions.

With consistently ascending CAGR and vast infrastructural support from the Government of India, Animal Husbandry sector is evolving at a rapid pace in India and hence there is a huge necessity for continuous knowledge refreshment and training for workforce in this industry as well as to make the new entrants in this field to be market ready.

The promoters of Agrivet felt this need and created Agrivet School. Agrivet School is mandated to enhance technical knowledge and impart training to the existing workforce in Animal Husbandry industry and to freshers who are ready to join this sector.

Being an initiative of Agrivet group, Agrivet School is mentored by some of the leading veterinarians and technocrats in the field of Animal Husbandry and Animal Nutrition Research.

With its own infrastructure and integrated set-up in a green campus, in the outskirts of Kolkata, Agrivet School offers courses with right mix of classroom-based knowledge transfer and on-site hands-on training.

Our courses are targeted for: On-job professionals and Freshers who are ready to join the industry. Summer Training, Internships, and Industrial Training activities are taken up for the interested students and educational institutions.
