

# Mastering Poultry Feed Milling Technology for Optimal Nutrition

## ABOUT THE PROGRAM

This intensive program will delve into the fundamentals of Feed Milling, Critical Control Parameters & their impact on Animal Nutrition, Feed Formulation and emerging trends in the industry. Our expert instructors will cover essential topics such as Feed Quality, Productivity and Troubleshooting, along with hands-on demonstrations on feed mill hygiene and process audits.

*Duration:*  
It's a  
**3 Day long**  
On-campus program

## PROGRAM HIGHLIGHTS

- ▶ The program is aimed at offering a 360° view of Feed Milling.
- ▶ The expected outcome of the session is to enable the participants to engage into more personalized and meaningful understanding and application of feed milling techniques.
- ▶ The sessions are delivered by eminent industry experts (with 20+ years of experience) in a crisp, methodical and application oriented manner. The program's objective is to enhance your skill to make the best use of future technologies, techniques and tactics that can set a new career momentum for You.
- ▶ All the sessions are planned on our Training campus, which houses the Research Farms, Commercial Farms, Advanced Poultry Diagnostic Labs and a Laboratory Scale Pellet Feed Mill.

## CURRICULUM INCLUDES

- ▶ Importance of Feed Mill in an Integrated Poultry Enterprise
- ▶ Key performance indices for a feed mill
- ▶ Basic feed milling processes: production of Pellets and Mash
- ▶ Fundamentals of feed milling operation: Batching, Grinding, and Mixing
- ▶ Fundamentals of feed milling operation: process of producing Mash and Pellets
- ▶ Fundamentals of feed milling operation: Premixing and Mixing Uniformity
- ▶ Fundamentals of feed milling operation: Practical demonstration in a prototype Feed Mill
- ▶ Critical Control points in a Feed Milling Operations
- ▶ Feed mill hygiene: an overview
- ▶ Feed mill audit: the theoretical aspects
- ▶ Feed mill audit: the practical aspects
- ▶ Automation in Feed Milling

### **PROGRAM SUITABILITY**

This program is suited for Feed Mill Operation Managers, Nutritionists, Feed industry professionals, Poultry farmers and integrators, Suppliers and manufacturers of Equipments, Post Graduate Students and Technical/ Marketing professionals of companies operating in Animal Feed manufacturing business.

### **ESSENTIAL INFORMATION**

- All IOP, SDP, FMP programs are fully residential. Delivery mode will be in person, on-campus. (except FMP Aquaculture). The HOT programs are Non-residential.
- Sessions are conducted at the Agrivet School Campus which is located at State-of-the-Art Agrivet Research Center housing Research Farms (Broiler, Layer, Breeder & Aqua), Commercial Farm, Advanced Analytical & Diagnostic Laboratories and Pellet Feed Mill.
- Agrivet School Campus is equipped with a smart classroom having interactive audio-visual display and high-speed internet connectivity.
- Individual travel & the cost of accommodation is not included in the program fees. Personalized assistance is provided through a dedicated Travel Desk. The team will assist each participant in finding appropriate accommodation in the hotels near the pick-up location at a specially contracted tariff. Alternatively, participants may book their stay on their own.
- Everyday local transportation in air-conditioned vehicles from a prefixed pick-up point to the training facility is provided. Pick-up and drop location for daily visit to Agrivet School will be informed well in advance.
- Everyday lunch, tea and snacks will be provided at the training centre.
- Study materials (Soft copy/Hard copy) and basic stationery needed for the course will be provided.
- Protective wears needed for biosecurity during entering the laboratories and Farms will be provided.
- All participants will get a Certificate of Participation after successful completion of the course.

IOP: Industry Orientation Program, SDP: Skill Development Program  
FMP: Farm Management Program, HOT: Hands-on Training Program
