

Nurturing Healthy Flocks for Sustainable Poultry Health

ABOUT THE PROGRAM

In today's dynamic poultry industry, a Poultry Health Advisor plays diverse and critical roles. From being a trusted clinician and subject matter expert to a financial problem-solver and strategic partner, the expectations from enterprises are vast and evolving. However, there is a lack of professional platforms that offer young and bright health experts the opportunity to enhance their skills in a practical, collaborative environment.

The Industry Orientation Program - Poultry Health, hosted by Agrivet School, bridges this gap. This innovative initiative provides hands-on training, real-world exposure, and future-ready skills to prepare participants for the evolving needs of modern poultry enterprises. With a 360-degree focus on poultry health across Broilers, Layers, and Breeders, this program is tailored to create impactful professionals ready to address both day-to-day challenges and the bigger picture of enterprise health management.

Delivered by industry experts with over 20 years of experience, the program fosters teamwork, innovation, and enterprise-focused solutions to help you excel in your career.

PROGRAM HIGHLIGHTS

- ▶ The program is aimed at offering a 360-degree view of Poultry Health across Broilers, Layers and Breeders.
- ▶ All the sessions are designed to sensitize the participants to the challenges and resources in the daily life of a 'Poultry Health Advisor of Tomorrow' from a variety of perspectives.
- ▶ The expected outcome of the sessions is to enable the participants to engage in more personalized and meaningful professional practice, which may ultimately lead to solving poultry health problems for clients that are directly linked to the BIG picture of the Enterprise.
- ▶ The sessions are delivered by eminent industry experts with 20+ years of experience in a crisp, methodical and application-oriented manner. The program's objective is to up skill you to make the best use of future technology, techniques and tactics that can set a new career momentum for YOU.
- ▶ All the sessions are planned on our Training campus, which houses our Research Centre, Commercial farms, Advanced Poultry Diagnostic Labs and a Pellet Feed Mill.
